

Admin How-To Guide

A complete reference for managing your organisation's compliance training

About this guide

This guide walks you through every admin task: inviting users, setting up departments, enabling training modules, reading compliance reports, downloading certificates, and configuring your AI policy and organisation settings.

Contents

01	Inviting & Managing Users - Single & bulk user invitations - Changing user roles - Revoking access
02	Departments & Module Assignment - Create departments - Assign users - Enable modules - Set deadlines
03	Reports & Compliance Tracking - Compliance dashboard - Audit log export - Certificate downloads
04	AI Policy & Org Settings - AI policy quiz - Upload organisation logo - POSH / ICC details

SECTION

01

Inviting & Managing Users

Add individuals or bulk-import teams, assign roles, and control access.

Invite a Single User

1

Go to Admin Dashboard -> Users tab

Click Users in the top navigation of the admin panel.

2

Click the Invite User button

Found in the top-right corner of the Users tab.

3

Enter the user's full name and email address

Both fields are required to send the invitation.

4

Select a role: Learner or Manager

Managers can view their team's compliance status in addition to their own training.

5

(Optional) Select a department

Assigns the user to a team and filters their module list accordingly.

6

Click Send Invite

The user receives a setup email with a secure link valid for 7 days.

Tip: If the link expires, resend it from the Users tab -- click ... next to the user.

Bulk Import Users via CSV

1 Go to Admin Dashboard -> Users tab

2 Click Bulk Invite and download the CSV template

The template has Name, Email, and Department columns.

3 Fill in one user per row and save the file

Department names must match exactly what exists in the platform.

4 Upload the completed CSV file

Drag and drop or click Browse to select the file.

5 Review the preview list for any errors

Rows with invalid or duplicate emails are highlighted in red.

6 Click Send All Invites

Each user receives an individual invitation email.

Tip: Always use the downloaded template -- custom column orders will cause import errors.

Change a User's Role

1

Go to Admin Dashboard -> Users tab

2

Find the user using the search bar

Search by name or email address.

3

Click the role badge next to their name

The badge shows their current role: Learner or Manager.

4

Select the new role from the dropdown

5

The change takes effect immediately

No email is sent -- the user sees their new access on next login.

Tip: Admins cannot demote themselves. Ask another admin or your SuperAdmin to change your role.

Revoke User Access

1

Go to Admin Dashboard -> Users tab

2

Find the user and click the ... menu

The three-dot menu appears at the right of each user row.

3

Select Revoke Access

4

Confirm the action in the dialog

This is immediate and cannot be undone from this screen.

5

The user is signed out instantly

They can no longer log in or access any training content.

Tip: Revoked users can be re-invited at any time using the same email address.

SECTION

02

Departments & Module Assignment

Structure your organisation into teams and control which training each team sees.

Create a Department

1

Go to Admin Dashboard -> Departments tab

2

Click Add Department

3

Enter a department name (e.g. Finance, Legal, HR)

Names must be unique within your organisation.

4

Click Save

The department is immediately available for user and module assignment.

5

(Optional) Enable RPT Simulator for the department

Toggle the simulator switch on the department card.

Tip:

You can only delete a department if it has no assigned users.

Assign Users to a Department

1

Go to Admin Dashboard -> Users tab

2

Select one or more users using the checkboxes

Tick the header checkbox to select every visible user at once.

3

Click Assign Department in the bulk-action toolbar

The toolbar appears at the top when one or more users are selected.

4

Choose the target department from the dropdown

5

Click Confirm

Users are reassigned instantly; their module list updates automatically.

Tip: A user can only belong to one department at a time.

Enable a Module for Your Organisation

1

Go to Admin Dashboard -> Modules & Compliance tab

2

Locate the policy module you want to activate

Modules include Anti-Corruption, POSH, Data Privacy, Cybersecurity, and more.

3

Toggle the Enable switch to ON

4

Choose scope: All Employees or specific departments

5

Click Save

The module appears on the dashboards of assigned users immediately.

Tip:

Disabling a module hides it from users but preserves all existing completion records.

Set a Module Deadline

1

Go to Admin Dashboard -> Modules & Compliance tab

2

Click the calendar icon next to the active module

Only enabled modules can have deadlines assigned.

3

Pick a due date from the date picker

4

Click Save

The deadline is displayed on every assigned user's dashboard.

5

Overdue warnings appear automatically

Users who miss the deadline see a red banner on their dashboard.

Tip: Set deadlines at least 2 weeks ahead to give users adequate time to complete training.

SECTION

03

Reports & Compliance Tracking

Monitor training progress, export audit records, and download certificates.

View the Compliance Dashboard

1

Go to Admin Dashboard -> Reports tab

2

View the compliance overview chart

Shows the percentage of employees who have completed all assigned modules.

3

Use the date range filter to refine the view

Compare progress across different time periods.

4

Click a department bar to drill down

See the completion status for every individual in that team.

5

Switch to the Leaderboard tab

View top-performing employees ranked by training completion.

Tip:

The compliance % only counts modules that are marked as required for the organisation.

Export the Audit Log

1

Go to Admin Dashboard -> Reports tab -> Audit Log

2

Set the date range filter (From / To)

Leave blank to export the full available history.

3

Click Export CSV

The file downloads to your computer immediately.

4

Open in Excel or Google Sheets

The log includes logins, quiz attempts, completions, and all admin actions.

Tip: Audit logs are retained for the past 12 months.

Download Certificates

1 Go to Admin Dashboard -> Reports tab

2 Click Bulk Download Certificates

3 **Select the module and date range**
Filter by completion date to get a specific cohort's certificates.

4 **Click Export**
A ZIP file of individual PDF certificates is downloaded.

5 **To view a single user's certificate:**
Find the user in the Users tab -> click View Certificate.

Tip: Certificates display your organisation logo -- upload it in Settings first.

SECTION

04

AI Policy & Org Settings

Configure AI use policy tier, upload branding, and set up POSH committee details.

Run the AI Policy Quiz

1

Go to Admin Dashboard -> AI Policy tab

2

Read the four policy assessment questions carefully

Questions cover how your organisation uses AI across different workflows.

3

Answer each question based on your organisation's actual AI usage

Examples: invoice processing, legal document drafting, data anonymisation.

4

The platform assigns a tier automatically:

Tier 1: Restricted Use | Tier 2: Standard | Tier 3: Responsible Use

5

The matching AI training module is assigned to all users

Users see the new module on their dashboard immediately.

Tip:

Re-run the quiz any time your organisation's AI practices change.

Upload Your Organisation Logo

1

Go to Admin -> Settings (gear icon in the sidebar)

2

Scroll to the Organisation Logo section

3

Click Upload Logo

Supported formats: PNG, JPG -- maximum file size 2 MB.

4

Preview the logo in the thumbnail

Ensure it looks clear and well-cropped at small sizes.

5

Click Save

The logo appears on all new and existing user certificates.

Tip:

A square or landscape logo with a transparent background produces the best results.

Configure POSH / ICC Details

1

Go to Admin -> POSH Policy (via the sidebar)

2

Enter your company's registered address and helpline number

3

Enter the Presiding Officer's name and contact details

The Presiding Officer chairs the Internal Complaints Committee (ICC).

4

Add all IC members with their names and designations

5

Click Save

Details are embedded in the POSH policy module content shown to users.

Tip:

Update these details immediately whenever your ICC membership changes.

You're All Set!

Invite & Manage

Single invites, bulk CSV imports, role changes, and access revocation.

Departments & Modules

Create teams, enable required training, and set completion deadlines.

Reports

Monitor compliance, export audit logs, and download certificates.

Settings

AI policy tier, organisation logo, and POSH/ICC configuration.

Need Help?

Contact support via training.aaplus.app or your SuperAdmin.

Keep Updated

Re-run AI policy quiz and update ICC details whenever they change.
